Work Experience

Ctrends Software and Services Ltd

App Developer

Dhaka, Bangladesh

Nov 2022 - Present

- Developed HRM system (Attendance with live tracking, Leave Management, Team Management)
- Messaging System (socket, fcm)
- Developed a critical safety application, "TheCitizen" which connects users in need of emergency assistance directly with relevant authorities. This app empowers users to report emergencies through "shouts" and facilitates a streamlined response system for authorities.

Desktop It Ltd

Junior App Developer

Dhaka, Bangladesh

June 2022 - Oct 2022

- Designed and implemented a mobile application for sending bulk SMS messages using a third-party SMS sender API.
- Utilized GetX for state management, ensuring efficient data handling and UI updates.
- Implemented in-app group creation functionality, facilitating targeted messaging.

Druto Soft Ltd

Junior App Developer (Part time)

Dhaka, Bangladesh

September 2021 - May 2022

- Contributed to the development of a E commerce application named Druto Shoes, listed on CodeCanyon.
- Focused on functionalities and state management, ensuring the app's core mechanics and data flow functioned smoothly
