Objective

- Flutter Developer with 4+ years of professional experience designing, developing, and maintaining high-performance cross-platform mobile applications for Android and iOS. Skilled in Flutter, Dart, Kotlin, Riverpod, Bloc, GetX, RESTful APIs, Firebase, Socket.io, Google Maps, offline-first architecture, and real-time synchronization. Experienced in application deployment, performance optimization, state management, and scalable mobile architecture.
- Currently serving in a Team Lead role, contributing to technical decision-making, mentoring developers, conducting code reviews, and collaborating with cross-functional teams to deliver high-quality mobile solutions. Passionate about building reliable, user-centric applications and leveraging modern technologies to solve real-world business challenges. Seeking an opportunity to contribute technical expertise, leadership skills, and innovative problem-solving abilities within a growth-focused organization.

Projects

myXinatorPRO Field Agent - PRO – Xceleran Inc.

<https://apps.apple.com/us/app/myxinatorpro-field-agent-pro/id6752581159>

Developed a full-featured service management app for Xceleran Inc., empowering field technicians across multiple franchises to efficiently manage daily operations.

- Built core modules for appointment tracking, job status updates, customer information, and real-time syncing with Xceleran's backend.
- Integrated estimate and invoice creation, photo evidence upload/view, and in-app notes for seamless company-technician-customer communication.
- Implemented map redirection for job locations and optimized UI/UX for on-site workflow, ensuring smooth performance even in offline mode.

Garibook

<https://play.google.com/store/search?q=garibook&c=apps&hl=en>

Garibook is an intercity travel app that offers city rides, intercity trips, car rentals, and airport rental.

- Enhanced and implemented ride-sharing functionality in Garibook App,
- Implementing advanced features for customer and driver interactions.
- Developing innovative mobile applications to enhance user experience and streamline business operations

■ Garibook Enterprise

🔗 https://play.google.com/store/apps/details?id=com.garibook_enterprise.garibook_enterprise

Garibook Enterprise helps businesses and fleet owners manage bookings, bid on trips, and track earnings

- Developed Garibook Enterprise App for car rental business owners, focusing on user-friendly design and efficient workflows.
- Developing innovative mobile applications to enhance user experience and streamline business operations.

■ Garibook Smart Driver

🔗 <https://play.google.com/store/search?q=garibook+smart+driver>

Garibook Smart Driver is an app enabling drivers to view available trips, bid fares, and access trip details.

- Enhanced and implemented ride-sharing functionality.
- Implement Socket.io for real-time communication.
- Developing innovative mobile applications to enhance user experience and streamline business operations

■ The Citizen

<https://play.google.com/store/apps/details?id=com.ctrendssoftware.thecitizen&hl=en>

The Citizen App focused on enhancing user experience and safety

- Developed HRM system (Attendance with live tracking using Map, Leave Management, Team Management).
- Implemented a messaging system using socket.io and FCM.
- Developed a critical safety application, "TheCitizen," connecting users in need of emergency assistance directly with relevant authorities.

■ D-SMS App

🔗 https://play.google.com/store/apps/details?id=com.dsms.bulk_sms_project&pcampaignid=web_share

A mobile application for **SMS** services

- Designed and implemented a mobile application for sending bulk SMS messages using a third-party SMS sender API.
- Utilized GetX for state management, ensuring efficient data handling and UI updates.
- Implemented in-app group creation functionality, facilitating targeted messaging.

■ Druto Shoes App

🔗 <https://codecanyon.net/item/shoes-full-ecommerce-app-with-laravel-admin-panel/48678038>

E-commerce App, Shoppers can easily add and manage their favorite shoe designs with a seamless cart operation.

- Development of an E-Commerce application named Druto Shoes, listed on CodeCanyon.
- Pixel Perfect designs and implements APIs and uses GetX for state management.
- It's a complete e-commerce solution, featuring product display, cart, order placement, and much more.

Open Source Project

● simple_horizontal_bar

🔗 https://pub.dev/packages/simple_horizontal_bar

Developed a Flutter package for creating customizable, responsive bar charts with animated bars and tooltips.

- Supports percentage and raw value display.
- Fully customizable styles including colors, fonts, and layout.
- Designed for seamless integration and adaptive screen sizing.

Experience

07/2025 - Present
Remote, USA

Mobile App Developer (Team Lead)
[Xceleran Software, Inc.](#)

- Developed a full-featured service management app for field technicians.
- Built core modules for appointment tracking, job status updates, and customer management.
- Integrated estimate and invoice creation, photo uploads, and real-time synchronization.
- Implemented map redirection and optimized offline-first workflows.
- Led Flutter development initiatives across multiple mobile projects.
- Conducted code reviews and provided technical guidance to developers.
- Collaborated with product managers, designers, and backend engineers to define application architecture and delivery timelines.
- Participated in technical planning, feature estimation, and release management.

08/2024 - 07/2025
Gulshan, Dhaka

App Developer
[NRB Solutions Ltd \(Garibook Limited\)](#)

- Developed and maintained customer, driver, and enterprise applications serving the ride-sharing and car rental ecosystem.
- Implemented real-time trip management, bidding systems, and driver-customer communication using Socket.io.
- Collaborated with backend teams to integrate RESTful APIs and optimize application performance.
- Designed and implemented scalable features for booking management, trip tracking, and business operations.
- Participated in requirement analysis, sprint planning, and production release activities.
- Resolved critical production issues and continuously improved application stability and user experience.

11/2022 - 06/2024
Dhaka, Bangladesh

Mobile Application Developer
[Ctrends Software and Services Ltd](#)

- Developed and maintained enterprise-grade mobile applications for HRM, communication, and emergency response systems.
- Integrated Firebase Cloud Messaging (FCM), Socket.io, and location-based services for real-time user engagement.
- Collaborated with cross-functional teams to deliver features aligned with business requirements and timelines.
- Optimized application performance, reduced bugs, and improved overall user experience.
- Participated in application deployment, maintenance, and post-release support activities.

06/2022 - 10/2022
Dhaka, Bangladesh

Junior App Developer
[Desktop It Ltd](#)

- Developed a bulk SMS mobile platform with group-based messaging capabilities.
- Integrated third-party SMS gateway APIs and implemented secure communication workflows.
- Utilized GetX state management to improve application responsiveness and maintainability.
- Collaborated with backend developers to ensure reliable message delivery and synchronization.

09/2021 - 05/2022
Dhaka, Bangladesh

Junior App Developer
[Druto Soft Ltd](#)

- Developed and maintained a full-featured e-commerce mobile application using Flutter.
- Implemented product browsing, cart management, order placement, and payment-related workflows.
- Consumed REST APIs and optimized application performance for smooth user experiences.
- Worked closely with designers to deliver pixel-perfect and responsive user interfaces.
- Participated in testing, debugging, and production deployment processes.

Skills

- **Mobile Development** • Flutter, Dart, Kotlin, Android Native, ios Native
- **State Management** • Bloc, GetX, Riverpod
- **Backend & Integrations** • REST API, Firebase, Socket.io, Google Maps, Payment Gateway Integration, Push Notifications
- **Database** • Isar DB, Hive, Sqflite
- **Tools** • Git, GitHub, CI/CD, Firebase Crashlytics, Firebase Analytics
- **Methodologies** • MVC, MVVM, Agile/Scrum
- AI & Generative AI** • LangChain, Retrieval-Augmented Generation (RAG), Vector Databases, LLM Integration, Prompt Engineering, Embedding Models and Semantic Search, Document Processing and Knowledge Retrieval
- Soft Skills** • Time Management, Teamwork, Problem-solving, Documentation, Engaging Presentation

Education

- 01/2018 - 01/2021**
Dhaka, Bangladesh • BSc in Computer Science and Engineering
Daffodil International University
CGPA : 3.54
- 01/2014 - 01/2018**
Habiganj, Sylhet, Bangladesh • Diploma in Computer Technology
Habiganj Polytechnic Institute
CGPA : 3.32
 - Selected as the 'best in technical skills'
- 2010 - 2013**
Pabna, Rajshahi, Bangladesh • Secondary School Certification Exam
R.M Academy School and College
CGPA : 4.56

Achievement

- **Employee of the Month** - at **Garibook Ltd.** (October 2024) for demonstrating exceptional problem-solving skills and improving application performance through efficient and strategic work.
- **Certificate of NEXT IDEA-** at **Garibook Ltd.** (December 2024 and February 2025) for contributing innovative ideas that enhanced productivity and operational efficiency.
